ON CHANGE.

Spot Cotton Fractions, Futures 1 to 10 Points Higher.

THE BULLS IN CONTROL.

Wheat Opened Strong, Fluctuated Narrowly and Closed at an Advance. Coffee, Wool and Sugar Markets Unchanged.

The Fort Worth Market.

Special to the Gazette.
New Orleans, La., Aug. 19.—Atwood, Violet & Co. say: Futures—Aberdeen, Miss., reports to New Orleans and New York that the market is eating up the cotton on the prairies; that Paris green has been ordered but will arrive too late.

New York closed 10 points higher than last night on this sensational dispatch. We say sensational as it sounds too extreme. New Orleans closes better as the rumors are not thought to have done any material damage anywhere. But for these reports we think the market would have declined as the general feeling here is weak, which is largely on account of the extent of speculation.

The worm reports prove to be exaggerated, we look for a reaction from this advance, especially as general crop conditions continue so favorable. Liverpool spot sales are 6000, and futures about 1 point better.

Spots—Easy. Sales, 300. Good middling reduced 1-1/2. Middling should have been lower as well, and the present high level of prices is too high.

Free on board—None. Interior prices asked are too high.

Governments, Stocks and Bonds.
New York, Aug. 19.—The stock market displayed less activity than during the last four days, and its temper was somewhat unsettled owing to the efforts of those who are in favor of a more substantial reason for higher prices than has been given.

The number of sold-out bulls increases from day to day, and their desire to gain for a turn on the long side, is becoming an important factor in the course of prices, and the present high level of the market gives them a great deal of encouragement, such stocks as Rock Island, which has advanced from 69 to 70, being prominent in their argument for a temporary setback to the market. The rampant bulls, however, of which there are large numbers, insist that there is no sign of weakening in the list. Considerable manipulation of stock prices serves to give strength to the remainder of the list.

The market closed quiet but steady to firm at insignificant changes for the day. Net changes are about equally divided between gains and losses, but the only ones of importance are Industrials. The transactions of the day reached 246,675 shares.

Railroad bonds were again active and strong but failed to display any unusual activity. The few days, and the gains rounded are generally fractional.

Government bonds dull and steady. State bonds dull and firm.

Fatal Row Between Negroes.
Special to the Gazette.
Tomb, Shelby County, Tenn., Aug. 19.—Willis Jackson and another negro named John Davis, got into a row, and the result is Davis is dead from the effects of a blow on the head. Jackson claims the other man was trying to carve him with a knife.
